PROFESSIONAL SUMMARY

Detail-oriented AI-First Junior Full-Stack Developer with practical experience in Django, React Native, and cloud databases like Firebase and Supabase. Passionate about building scalable systems and optimizing application performance through AI-driven development workflows. Seeking a junior developer role to contribute modern, hands-on coding expertise while growing within a dynamic engineering environment.

EDUCATION

Bohol Island State University (BISU) - Balilihan Campus

Bachelor of Science in Information Technology

Balilihan, Bohol

2026 Graduate

- Relevant Coursework: Web Systems, Information Assurance, System Integration, Database Management.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), Typescript, Java, HTML5, CSS3, SQL

Web Frameworks: Django, Node.js, Express.js, React.js, React Native, Expo, Tailwind CSS, HTMX

Tools & Databases: PostgreSQL, MySQL, Firebase, Supabase, Git, GitHub, VS Code, Postman, GitHub Copilot

TECHNICAL PROJECTS

BISU Balilihan Budget Monitoring System (Capstone Project)

Lead Full-Stack Developer

August 2025 – Present

Technologies: Django, PostgreSQL

- Developed a comprehensive financial tracking application to digitize campus expense monitoring.
- Implemented Role-Based Access Control (RBAC) to secure sensitive financial data between admins and staff.

Lifeline Command Center (Personal Project)

Solo Full-Stack Developer

December 2025

Technologies: React.js, Firebase, Leaflet Maps

- Engineered a real-time disaster coordination platform featuring interactive incident mapping and live data synchronization using Firebase Firestore.
- Implemented a crowd-sourced verification system allowing users to validate or dispute active reports to ensure data accuracy.
- Optimized application for SEO with dynamic meta tags and deep linking capabilities for easier social sharing of critical alerts.

KARADA Workout Mobile App (Personal Project)

Mobile App Developer

2026 - Present

Technologies: React Native, Expo, Supabase

- Developing **KARADA**, an anime-inspired fitness mobile app with personalized workouts, physique-based training, and workout tracking.
- Built with React Native, Expo, and Supabase using authentication, real-time data, and scalable backend architecture.

EXPERIENCE

Bohol Island State University (BISU) Library

Student Intern (OJT)

Magsija, Balilihan, Bohol

January 2026 – Present

- Fulfilling a 720-hour mandatory university internship requirement by supporting daily library operations and administrative tasks.

- Organizing and managing facility resources while maintaining a high level of reliability and attention to detail.
